Conditions

The Yale Lifetime Security Guarantee is only valid when the following terms and conditions are met in full:

The home must have been broken into via forced entry through a PAS 24 door or window covered by the Yale Lifetime Security Guarantee.

The benefits of the Yale Lifetime Security Guarantee only apply where entry is gained to the property through a failure of a Yale component covered in this guarantee.

In order for a door or window to be covered by the guarantee, all window hardware (handles, hinges, and locks) must be Yale components or approved by Yale. All door hardware (handle, cylinder, multi-point lock, hinge and letterplate) must be Yale components or approved by Yale.

The guarantee does not cover components from other suppliers that may have been used on the product. If the break-in to the property is judged to have occurred due to the failing of any other component (for example broken glass) none of the above benefits will be paid.
